CONFIDENCE IN TEXTILES

FABRAA[®]
fabrics with a conscience

Europe

Incredibly soft, durable and also very sustainable... meet Europe! This chenille quality is woven on a jacquard loom. The warp exists completely from recycled polyester and for the weft we used (virgin) polyester and recycled cotton yarns.

Europe is roughly woven and has an extreme multicoloured aspect. This upholstery fabric is suitable for every type of upholstery and due to the chenille yarns it is voluminous and extremely soft.

Our product development team designed this luxurious textile together with an European partner who is specialized in producing sustainable fabrics. We had the ambition to create a fabric that will make the furniture immediately a real eyecatcher, the result is Europe and we hope you like it.

Europe is yarn dyed and machine-washable at 30 degrees Celsius*. Available from stock in a wide, deep and trendy colour line.

- We recommend to wash the cover inside out and immediately place the cover back to the piece of furniture, slightly damp, after washing.

Fabraa Upholstery fabrics with a conscience. We make sustainable choices easy by offering a wide range of high-quality, affordable upholstery fabrics with consideration for the conditions throughout the supply chain.
